

ACAT Student Mobility Reports: Step-by-Step Guide Institution Student Enrolment Flow

ACAT Student Mobility Reports: Institution Student Enrolment Flow

- ❖ The ACAT's Student Mobility Reports contain information regarding student enrolment flow and tracking for public post-secondary institutions and the six sectors in Alberta.
- ❖ These reports use Learner and Enrolment Reporting System (LERS) system data, which has been signed off by public post-secondary institutions, supporting easy access to existing data. **LERS system data includes data regarding all approved programs reported in LERS by publicly funded post-secondary institutions in Alberta's six sectors.**

ACAT Student Mobility Reports: Student Yearly Enrolment Tracking

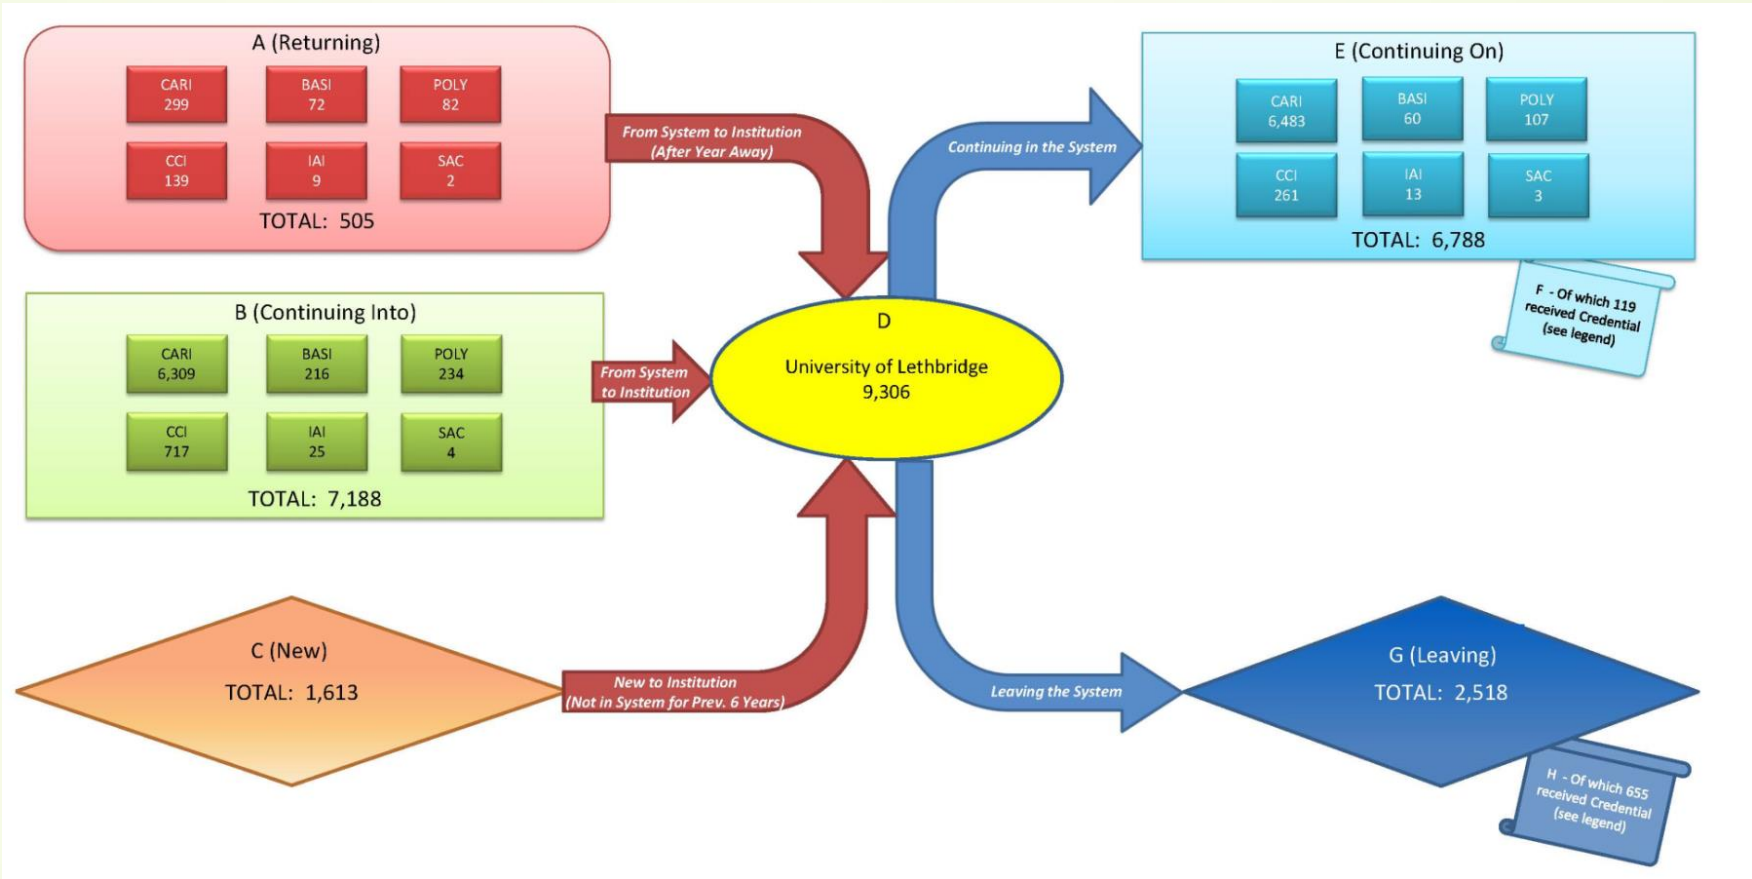

- ❖ The mobility reports are:
 - Institution and Sector Student Enrolment Flow reports, which provide student enrolment flows into, within, and out of Alberta's public post-secondary institutions and six sectors for a given academic year. These reports target the most recent, complete LERS system data set available.
 - A Student Yearly Enrolment Track by Post-Secondary Institution report, which provides tracking of student enrolment in public post-secondary institutions by academic year. This report looks back six years from the most current, valid LERS data available for a student cohort.
- ❖ Report updates will occur on a yearly basis as new LERS data is available and will maintain consistent templates.

- ❖ To provide the following illustrative examples, this presentation uses examples of real University of Lethbridge (U. of L.) institution information, which is available on ACAT's website alongside the reports for other public institutions.

The legend and notes on the next slide further describe the contents of A–H.
